

Experience the feel and thrill of a racing sequential gearbox with the

Sequential Shifting System!

The Sequential Shifting System (SSS)

replaces the standard H pattern shifting. Just like a pro, the **SSS** will enable you to:

- change gears without lateral movement
- change gears fast, smooth and accurately
- view selected gear on the Digital Indicator

The **SSS** is available for:

MITSUBISHI Lancer
EVO IV - IX

SUBARU Impreza
WRX STI

PORSCHE GT2, GT3

Since 1989, KAPS TRANSMISSIONS has been in the production and development of racing gearboxes. Our products assist many teams win rally competitions worldwide. Now, we are bringing the racing experience and superior quality of European engineering to you!
